

For participants via the Kansai airport

In Kansai airport, after going through customs, you will arrive at the passenger hall of the International North Arrival Gate. There you will find a sign showing the logo of IXS2007 and two people wearing the IXS2007 badge. They will guide you to the bus terminal and help you buy your bus ticket.

I XS2007

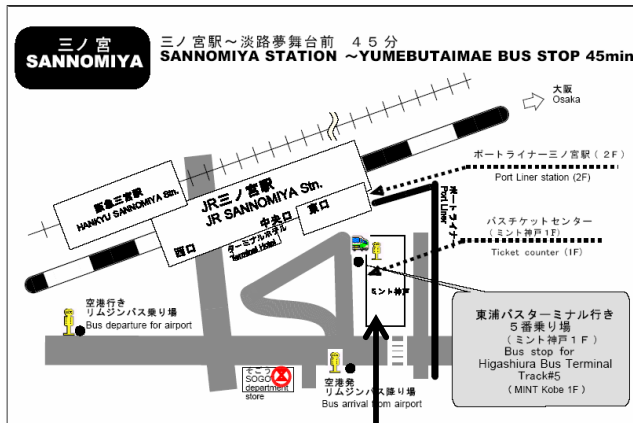

7-11 May 2007 Awaji, Japan

Awaji Yumebutai International Conference Center
6th International Conference on Inelastic X-ray Scattering

Conference logo

The bus goes nonstop to the San-no-miya bus terminal in Kobe, located right next to the San-no-miya train station. **You need to change the bus here.** There will be no stop between the airport and San-no-miya. Once you get the San-no-miya bus terminal, two people with the IXS 2007 badge and the sign will help you get on the bus heading for the 'Awaji-Higashi-Ura' bus terminal.

The bus will make several stops between Kobe and Awaji. Please get off the bus at 'Awaji Yume-butai Mae' (after getting over a big bridge). You will easily find the 'Hotel Westin' as it is the highest building there. The welcome party will be being held in the 'Yume-butai conference hall', which is located next to the Hotel Westin.

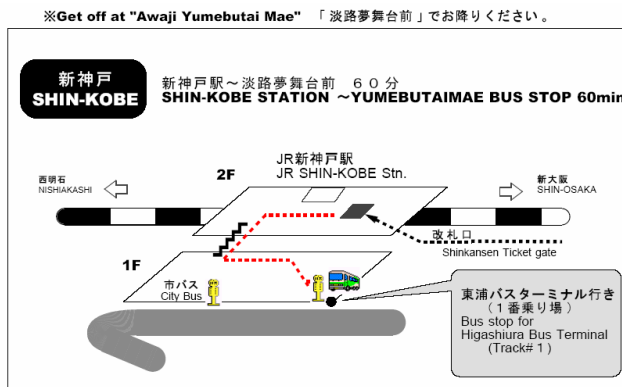

We'll be here!

It costs about 2,700 yen to travel from Kansai airport to Awaji International Conference Center by bus. If you take a taxi, it will cost 35,000 yen. (You could share with 2-4 people.) We will be in the airport and San-no-miya to help you from 8:15 am to 8:36 pm, i.e., the available hours of the buses.

For participants via other airports

If you come to Japan through other airports, we recommend you to take an express train, Shin-kan-sen, to get to JR Shin-Kobe station. When getting off the Shinkan-sen, you will be in the second floor. Please come down to the bus stop (Track number, 1), which is located in the first floor, to take a bus heading for the 'Awaji, Higashi-ura' bus terminal. We are sorry that **nobody will be arranged to help you in Shin-Kobe**. However, it is not difficult to take the bus since the station has a simple structure.
